

EARN WHILE YOU LEARN

Baker Industries is offering PAID apprenticeships to graduating seniors!

DESK JOBS AREN'T FOR EVERYONE.

Start a hands-on career in a high-demand industry! At Baker Industries you will take part in building tools for some of the world's best known brands in automotive and aerospace.

HIGH SCHOOL TO HIGH SKILLED.

Manufacturing will need an average of 109,410 workers through 2024

due to new growth and the need to replace retiring workers. In an effort to fill this talent pipeline, Baker Industries is reaching out to local educators and the community at large to spread the word of our exciting new career development opportunities.

WHAT YOU CAN EXPECT:

- **On-the-job training that is comparable to a technical school program**
- **Competitive starting compensation with merit-based raises**
- **Full-time schedule with overtime opportunities**
- **Health, dental, and vision insurance and 401k match**

Apprentices will have the opportunity to learn and become highly skilled in one of the following high-demand career pathways:

- **Welder**
- **Machinist**
- **Designer**
- **Tool Builder**
- **Laser/CMM Operator**
- **Project Manager**
- **Quality Assurance**
- **And more!**

If you are a hardworking, dedicated individual with a desire to learn, apply online:
